

CONTROL ROOM

Operation, Maintenance, Reporting

Remote Connections

Firewall

OFFICE

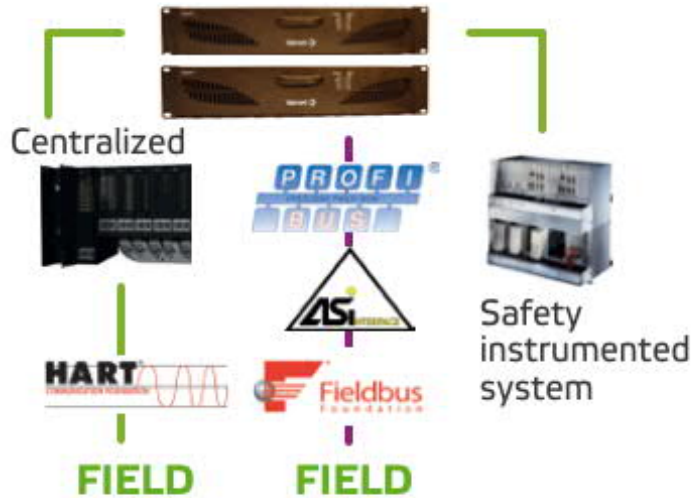

Reporting, Enterprise Integration

Star or ring topology
redundant Ethernet network

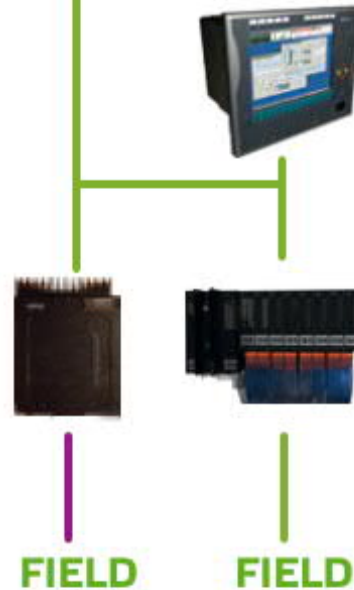

AUTOMATION ROOM

Controls, Optimization, Connectivity

Engineering and Maintenance,
Asset Management, DNA Historian

Distributed

- Updating layered security with hardening, anti-virus and DMZ solutions
- Information through Web Service interfaces
- Concurrent solutions for operations and maintenance

One platform for all control applications

- Integrates major field buses and field asset management
